

## Confronting the Burden of Injuries - JHSPH OpenCourseWare

### Self-Study Survey 5

Reading: [Mathur N, Sharma KK. Medico-economic implications of industrial hand injuries in India. J Hand Surg Br 1988;13:325-7](#)

1. What do authors include in their measurement of costs?
  - a. Hospital and other health care payments
  - b. Short-term and long-term disability payments
  - c. Cost of replacing workers
  - d. Productivity (but only partially)
  - e. A and C
  - f. B and D
  
2. The costs are expressed in \_\_\_\_\_ Rupees and British pounds.
  - a. 1983
  - b. 1986
  - c. 1988
  - d. Undetermined
  
3. Costs data were derived from:
  - c. The 625 consecutive hand injury cases included for analysis
  - d. The 417 cases for whom time off work data were available
  - e. The 295 cases for whom claims settlement data were available
  - f. Different cases for different portions of the costs
  
4. Whose perspective do you think this analysis represents?
  - a. The losses to the workers
  - b. The losses to the employers
  - c. The losses to the city
  - d. The losses to the nation
  - e. All of the above
  - f. None of the above
  
5. Would you consider this a comprehensive analysis on the costs of this particular injury
  - a. Yes
  - b. No

### Answer Key

1. f
2. d
3. d
4. f
5. b
