References And Readings For Lectures

Lecture 0 – Course Overview

Lecture 1 – How do we Think About “Health”? 

**Required Readings**

**References**

Lecture 2 – Health Status Measurement

**Required Readings:**

**References:**

Lecture 3 – Measurement and Use of Biomarkers in Population-Based Research

Required Readings:

References:

Lecture 4 – Conceptual Frameworks: Applications to Child and Adult Health

Required Readings:

**References:**

**Lecture 5 – Conceptual Frameworks; Applications to Reproductive Health**

**Required Readings:**

**References:**

**Lecture 6 – Exploring Inequalities – Socioeconomic Inequalities**

**Required Reading**

**References**

**Lecture 7 – Multiple Determinants of Health – Race/Ethnicity**

**Required Readings:**

**References**

Lecture 8 – Multiple Determinants of Health – Sex and Gender

Required Readings:

References:
Lecture 9 – Life Span Concepts: Demographic Transition and the Theory of Technophysio Evolution

Required Readings:
