

Introduction to Demographic Methods

Session 10 Exercise

1. Given the following data for the U.S.:

	Total Resident Population		Intercensal	
	1 April 1980	1 April 1990	Births	Deaths
United States	226,546	248,710	37,645	20,676

Check the correct estimate of the average annual net immigration into the U.S. for the period 1 April 1980 to 1 April 1990 (numbers are in thousands)

35,124 37,095 39,133

Introduction to Demographic Methods

Session 10 Answers

1. 39,133
